

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

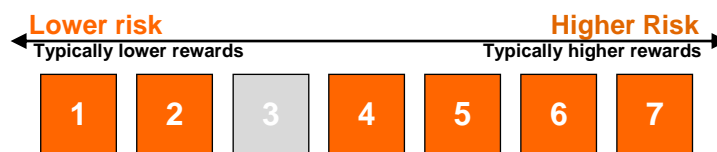

Balanced World Conservative - "I"

A Sub-Fund of New Millennium
"Capitalization" shares (ISIN LU0373792802)
This SICAV is managed by NATAM Management Company S.A.

Objective and Investment Policy

- **Banca Finnat Euramerica S.p.A.** is the Investment manager of this Sub-fund
- The objective of the Sub-Fund is to achieve, in the medium/long term, returns in excess of those which can normally be achieved on bond markets through a moderate exposure to equity markets and to different types of investments;
- The Sub-Fund is a global moderate balanced fund, characterized by both geographic and sector diversification among different investment assets and characterized by a focus on different investment strategies. The exposure to these strategies can be carried out also significantly through shares of other funds. The selection of the funds is carried out through a self developed model;
- The equity component, typically large cap with a wide geographical and sector diversification, can reach the maximum weight of 30% of the net assets value and the securities selection process gives priority to fundamental analysis;
- With regard to the bond component, Investments in "non-investment grade" or "not-rated" transferable securities are allowed. Investments in such instruments, if not effected through shares of a UCIs, will be of a residual nature;
- Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can be used also for investment purposes provided that the total commitment does not exceed, at any moment, 50% of net asset value;
- A wide degree of discretion is allowed with respect to the benchmark which is made of:
 - 20% MSCI AC World Net Tot Ret Eur (NDEEWNR)
 - 50% B-Barclays Emu Govt Bond 3-5 y TR (LEG3TREU)
 - 30% B-Barclays global corp 1-3 y TR hedged EUR(BAC1TREH)
- Investors may redeem their shares on any business day for Luxembourg banks;
- All income is, normally, reinvested.

Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The risk indicator for the Sub-Fund is set at 3 because the volatility of its past returns has been medium-low. This is mainly because of the balance between the different investment assets diversified under a geographical and sector point of view;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
 - Significant changes in interest rates may cause large fluctuations in bonds;
 - The market value of equities may change significantly;
 - Emerging markets are characterized by custodian services and settlement of transactions that may be less evolved and less liquid than developed markets. Any investment in these markets is typically more volatile;
 - Derivative instruments can be used to increase, limit or keep the risk level of the Sub-Fund. The strategy implemented by the Manager may not always be successful and the Sub-Fund could therefore incur in significant losses;
 - Fluctuations in currency exchange rates can negatively affect the return of the investment. The currency hedging may not totally reduce this risk;
 - The investment in other UCITS/UCIs may result for the investor in the accumulation of expenses such as subscription, redemption, custodian, administration and management fees;
