Inflation Linked Bond Europe - "Y"

A Sub-Fund of New Millennium

"Distribution" shares (ISIN LU1362558600)

This SICAV is managed by **NATAM Management Company S.A.**

Objective and Investment Policy

- **Banca Finnat Euramerica S.p.A.** is the Investment Manager of the Sub-fund;
- The objective of the Sub-Fund is to achieve returns above the inflation rate of the Euro zone over a minimum period of 3 years;
- Through discretionary choices the Sub-Fund invests in :
 - at least 70% in inflation linked bonds denominated in European currencies with a preference for bonds issued by governments
 - up to 30% in non inflation linked bonds
 - up to 15% in commodity-linked financial instruments
- Investments in corporate bonds will not exceed 25% of the net asset value of the Sub-Fund;
- Non investment grade and not rated investments are not allowed
- A wide degree of discretion is allowed with respect to the **benchmark** which is made of:
 - 80% B-Barclays euro Govt inflat 3-5 y TR (BEIG0T)
 - 20% B-Barclays Euro Floating rate TR (LEF1TREU);
- Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can be used also for investment purposes provided that the total commitment does not exceed, at any moment, 30% of net asset value of the Sub-Fund;
- In order to mitigate exchange rate risks, the main currency positions are hedged against the Euro. Overall, investments for which the exchange rate risk against the Euro is not hedged shall not exceed 10% of the net asset value;
- Investors may redeem their shares on any business day for Luxembourg banks;
- A dividend equal to the annual average of the 3 months Euribor (daily data) + 70 bps is distributed on a yearly basis regardless of the performance of the Sub-Fund

Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The risk indicator for the Sub-Fund is set at 3 because the volatility of its past returns has been medium-low. This is due to the quality of bonds in which the Sub-Fund invests whose issuers must comply with strict rules laid down by the investment policy;
- The calculation related to this Sub-Fund, for the period prior to its launch, was made on the basis of the data of the preexisting classes and of its benchmark;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
 - The value of the investment may rise as well as fall significantly and it is possible to receive less than originally invested;
 - Significant changes in interest rates may cause large fluctuations in bonds;
 - The market value of financial instruments related to commodities is typically subject to significant fluctuations;
 - Derivative instruments can be used to increase, limit or keep the risk level of the Sub-Fund. The strategy implemented by the Manager may not always be successful and the Sub-Fund could therefore incur in significant losses

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One off charges taken before and after you invest
