## Multi Asset Opportunity - "L"

A Sub-Fund of New Millennium

"Capitalization" shares (ISIN LU1363165751)

This SICAV is managed by **NATAM Management Company S.A.**

## Objective and Investment Policy

- **Banca Finnat Euramerica S.p.A.** is the Investment Manager of this Sub-fund
- The objective of the Sub-Fund is to achieve long term capital appreciation through a balanced portfolio diversified on different asset classes with geographical and sectorial diversification at global level;
- Through decisions derived from the outcome of a fundamental analysis conducted on the global world economy, the Sub-Fund invests in transferable securities, units of UCITS and/or UCIs, financial instruments investing in commodities;
- Investment in units of UCITS and/or UCIs shall not exceed 49% of the net assets while the exposure to equity markets and commodities shall, at no point, exceed 30%;
- *Non-investment grade* and *not rated investments* are allowed up to 20% of the net asset value; however in exceptional circumstances and up to a maximum of 5%, the Sub-fund can be invested in bonds with minimum rating between C and CCC+ ;
- Financial instruments, denominated in any currency, can be issued by issuers of any nation but with a minimum exposure of 50% of the net assets in issuers based in Europe;
- A wide degree of discretion is allowed with respect to the **benchmark** which is made of:
  - 15% MSCI Europe Net TR eur (MSDEE15N)
  - 10% MSCI AC World Net TR eur (NDEEWNR) (non "euro hedged")
  - 40% B-Barclays Euro Govt 3-5 Year TR eur (LEG3TREU)

- Investors may trade their shares on any business day for Luxembourg banks provided that the stock exchange in which the shares are tradable is open for trading and that it is possible to cope with the orders
- All income is, normally, reinvested.

## Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The Sub-Fund has not been launched yet so, without historical performance, the risk category was set at 3 on the basis of the medium-low volatility of the benchmark;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
  - Significant changes in interest rates may cause large fluctuations in bonds;
  - The overall performance of a portfolio could be affected by the insolvency of one or more issuers;
  - The market value of equities may change significantly;
- Derivative instruments can be used to increase, limit or keep the risk level of the Sub-Fund. The strategy implemented by the Manager may not always be successful and the Sub-Fund could therefore incur in significant losses;
- Fluctuations in currency exchange rates can negatively affect the return of the investment. The currency hedging may not totally reduce this risk;
- Under certain market conditions, especially when the market is characterized by very low trading volumes, the sale of some financial securities could be particularly penalizing because of the lack of an adequate number of counterparties;
- The investment in other UCITS/UCIs may result for the investor in the accumulation of expenses such as subscription, redemption, custodian, administration and management fees;
