What is this product?

Type

The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

Term

There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

Objectives

Investment objective The objective of the Sub-Fund is to achieve medium/long-term capital appreciation.

Investment policies Through discretionary choices, an active management and a flexible allocation the Sub Fund invests in the following asset classes:

- equity and equity linked securities - between 10% and 40% of the net assets
- debt securities between 10% and 90%. At least 10% is invested in Government or Corporate bonds with rating Investment grade. Up to 40% of the net assets may be invested in convertible bonds and CoCo bonds. ETCs up to 10% of the net assets, provided that they are classified as transferable securities
- cash and money market instruments
- UCITS and UCIs up to 10% including ETF classified as transferable securities
- derivative instruments, for both hedging and investment purposes with an expected leverage, calculated as a sum of notionals, not exceeding 300%. Investment in credit derivative instruments including credit default swaps and credit spread derivatives is allowed both for hedging the credit risk specific to some issuers present in the portfolio and for selling protections. Also Total Return Swaps are allowed.

Geographical preference is given to European area and exposure to emerging markets is limited to 25% of the net assets.

Exchange rate risk is limited to 25% thanks to the hedging activity of the main currency positions against the Euro.

The Sub-fund has been categorized as a financial product falling under the scope of Article 6 of the SFDR.

Target EURIBOR 3 MONTHS INDEX + 300 BPS

Target uses Discretion is allowed with respect to the target. The active approach, which characterizes the management of the fund, implies that the deviation from the target may be significant.

Redemption and Dealing Investors may redeem their shares on a weekly basis (as of each Friday). They can also switch some or all their shares in those of another Sub-Fund and/or Class within the SICAV (except share class "L") without paying any extra fee.

Distribution Policy All income is, normally, reinvested.

Intended retail investor

The share class is not suitable to retail investors due to the Sub-Fund's characteristics. Suitable investors have a long term investment horizon, can bear the loss of the amount invested and do not have preference for products complying with ESG factors.

Practical information

Depository The SICAV depository is State Street Bank International GmbH, Luxembourg branch.

Further information A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites www.natam.lu, www.newmillenniumsicav.com and at the registered office of the Fund (17, Boulevard de Kockelscheuer L-1821 Luxembourg). Also the latest Net Asset Value per share are published on www.natam.lu and www.newmillenniumsicav.com

The information contained in this document is specific to Augustum Medusa Financial Flex. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.

The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between September 2017 and September 2022.

Moderate: this type of scenario occurred for an investment between August 2019 and August 2024.

Favourable: this type of scenario occurred for an investment between February 2016 and February 2021.

What happens if NATAM Management Company S.A. is unable to pay out?

In the event of Natam's insolvency, the assets of the SICAV will not be affected. The assets of the SICAV are held in safekeeping by the Depositary, that is required by law to segregate its own assets from the assets of the Sicav.

If the fund is not able to pay you out what is due, you may lose your entire investment. Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

■ 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	525 EUR	1,423 EUR
Annual cost impact*	5.3%	3.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.8% before costs and 2.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	3.00% The entry charges are the maximum figures that might be taken out of your money before it is invested. In some cases you might pay less. You can obtain the actual charges from your financial adviser or distributor.	Up to 300 EUR
Exit costs	0.00%, we do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	1.91% This is an estimate of the annual costs borne by the Sub Funds.	191 EUR
Transaction costs	0.34% This is an estimate of the costs incurred when we buy and sell the underlying investments for the product.	34 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.00% The performance fee rate is 10% of the positive returns the Sub-Fund achieves, if above HWM, over the target in the calendar year.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Recommended holding period (RHP) is 5 years but investors can request the redemption of their shares on a weekly basis (as of each Friday) without paying any redemption fee. The RHP has been selected on the basis of a quantitative and qualitative analysis considering the strategy, fees and the risk profile of the product.

Please note that the expected return is, anyway, not guaranteed.
